AMP/Putnam

Mitre-True

Quickly & accurately true up the 45° mitre on wood & aluminum frames, without changing the inside dimensions. A turn of the disk cleans up & corrects the mitre cut, giving you a perfect corner every time. Whether you use a vice or a machine, you'll get better results using the Mitre-True Sanding Disk Tool, made especially for picture framing.

Order #PU-MTS

Comes with:

- 3 -100 Grit Abrasive Disks (#PU-1110)
- 1 Abrasive Disk Cleaning Stick (#PU-A301)
- 45° Template and Allen Wrenches
- 1 Year Warranty by AMP International

VN-Manual

An entry level frame assembly machine. Does not require electricity or an air source as the V-Nail is driven by a heavy duty mechanical gear which is foot activated. The machine can be operated from the front or back depending on operator preference and V-Nails can be driven or stacked anywhere along the frame joint. This machine is well suited for low production shops or areas where noise is a major concern.

Order #VN-MANUAL

Specifications:

- Width 16" / Length 20" / Height 48" / Weight 110 lbs.
- Power source: manual, mechanical gear
- Frame Width 3/8" to 5" / Frame Height 1/4" to 4"
- V-Nail sizes: 3, 5, 7, 10, 12, 15 mm

Power Twist V-Nails For Medium And Hard Wood

- ITW Amp has designed a new V-Nail called "Power Twist". The new design has eliminated the need to carry both medium and hard wood V nails.
- Please use the new item numbers listed when ordering

Putnam V-Nails For MDF and HDF

- At this time we are also introducing a new series of nails designed to join extremely hard fiberboard called HDF (High Density Fiberboard). These new nails will join both MDF (Medium Density Fiberboard) and the extremely hard HDF.
