Dura Wire

DuraCoat
Replacement for
Super Softstrand

DuraSteel
Replacement for
Softstrand

DuraCoat is a stainless steel picture hanging wire. It is a soft, 7-strand wire which is plastic coated.

- Just as strong as braided or plastic coated steel wire twice it's size. It has better holding power, is faster to use and requires less wire to wrap a frame.
- Softer and easier to wrap than braided or plastic coated steel wire.
- Higher strength and greater ductility eliminates broken wires. No more punctured fingers.
- Corrosion resistant. Will not rust or discolor.
- Clear, kink resistant **plastic coating** easily positions and adjust on wall hanger.

DuraSteel is a stainless steel without plastic coating.

- Softer and easier to wrap than braided or plastic coated steel wire.
- Higher strength and greater ductility eliminates broken wires and frayed ends
- Smooth high luster finish will not mar walls, back of frames or framer's hands.
- Corrosion resistant. Will not rust or discolor.

**DuraCoat & DuraSteel
wire assort for discounts**
